Podcast Brief

Ep.1 Kenny Huang

We had a long talk on today's Internet issues such as IPV6, IoT and the stature for Internet Governance.

Ep.2 Fan-Chieh Lin

We discussed the internet working system, DNS, and the system protection.

Ep.3 Chiayou Kuo

The stories from Kuo's to promote social networking advocacy and gain international exposure for Taiwan

For Youth

We all know that youth forms the largest stakeholder group in the internet. According to the data, **70% of internet users are young people.**

As stated in the IGF report, the topic like **digital cooperation, cybersecurity, or the right of access to open source** are still tough issue in youth society.

Youth

Online Human Right
