The Future of ccTLD

Jo-Fan Yu (余若凡)

CEO, TWNIC

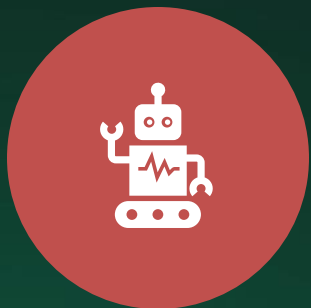

April 22, 2025

The Value of ccTLDs

- ccTLDs are national digital infrastructure with cultural and local significance.
- They support local trust, identity, and digital sovereignty.
- TWNIC promotes open access, digital literacy, and internet resilience in Taiwan.

Relevance & Risk in a Changing Landscape

CHANGING USER BEHAVIOR:
SEARCH ENGINES & AI
BYPASSING DOMAIN USE

ABUSE IS RISING: 98% OF DNS
ABUSE TARGETING TAIWAN IS
FROM OUTSIDE .TW

DOMAIN NAMES MUST EVOLVE:
TRUST, VERIFICATION, AND
STRATEGIC IDENTITY

Opportunity: Domains as Trust Anchors

Domains now
support branding,
verification,
authentication

TWNIC's
Greenmark: KYC-
based domain trust
service

New uses:
blockchain, digital
wallets, etc.

Future Focus: Data & Cooperation

Cooperation: cross-registry & cross-sector efforts to fight abuse

Data: user insights drive policy, innovation & service adaptation

ccTLDs as future-ready digital institutions
